FORWARD

Tuscarawas County was formed from Muskingum County by an act of the State Legislature passed February 13, 1808. On July 17, 1808, Conrad Reghert and Elizabeth Good were united in marriage by Abraham Mosser, Justice of the Peace. Thus, the marriage records of this county began.

Since the forming of Tuscarawas County in 1808, portions of land from this county were annexed to bordering counties as follows: Coshocton County, 1811; Harrison County, 1813; Holmes County, 1825; and Carroll County, 1832. On February 11, 1809, a portion of Jefferson County was annexed to Tuscarawas County. The last addition to this county was in 1847 when a small portion of Stark County was added.

This publication contains 3,972 marriages from Books 1-2-3 in the records of the Probate Court of Tuscarawas County. These are not the original marriage records but have been recopied into one volume. We do not know where the original records are. Every effort has been made to copy all of the information exactly as these records appear, but it is often obvious that the names are incorrect. We have made no effort to correct them.

The following suggestions are made to facilitate research in this book:

PROPER NAMES - Many descrepancies will be noticed in the proper names as they appear on early records compared to present-day spellings. Original spellings have been retained. It would be well to search under all phonetic spellings of the name if it is not found under the usual spelling. Examples: Casier may be found under Kaser. The name Ax became Ox through recopying by someone not familiar with local name spellings.

MARRIAGE DATES - Occasionally the year was omitted from the marriage record, but if the day and month were listed, we have written the year which appears on all the other marriages on that page followed by ?. Example: 1843? means all other marriages on this page were dated 1843. Instead of the month, occasionally a date will be given as Inst. instead of the month. Instant means occurring in the present month.

MARRIAGE OFFICIALS - To conserve space we have given each marriage official an identifying code number. These officials and code numbers are found at the beginning of the book. Example: If the number 17 appears in the column under official (Off.), you will check on page 3 and find that 17 is Abraham Snyder,

Minister. There may seem to be several duplications in these officials, but if the name appears several times with a different spelling a new number was given. All titles found for officials are included in the officials index. If no title is given following the officials name, this means there was none in the records.

PAGE AND RETURN NUMBER - These records begin with Page 1 - Return number 1, dated July 17, 1808, and proceed chronologically and numerically through December, 1844. This will facilitate identification if a certified copy is ordered from the Probate Court or you want to check the original record.

In submitting this book to the public, the Tuscarawas County Genealogical Society hopes that these records will be received as an honest and conscientious effort to present a permanent record of early marriages of this county. Errors will necessarily arise in the production of a work of this magnitude. This is especially true when we did not have the original records.
